Day Care Facility Address: _____

Child's Name: _____

Child's Date of Birth: ____ / ____ / ____ Age: _____

Today's Date: _____

Dear parent or guardian:

This child is enrolled in the Child and Adult Care Food Program (CACFP), a nutrition program funded by the U.S. Department of Agriculture (USDA). Each day care facility that participates in the CACFP must serve the minimum requirements from the Meal Pattern for Children (on back of this form) to be reimbursed. If there is a medical reason the child cannot eat one or more of the required foods, a recognized medical authority must complete the form below. Return the completed form to your day care facility.

THE FOLLOWING IS TO BE COMPLETED BY THE PHYSICIAN ONLY.

Check (✓) one of the following:

- Child has a disability according to 7 CFR Part 15b.3 (defined as "any person who has a physical or mental impairment which substantially limits one or more major life activities")

Answer the questions below.

What is the disability? _____

What major life activity is affected? _____

How does the disability affect the diet? _____

Please serve this child _____

_____ instead of _____

A food substitution is required.

- Child needs a special diet:

Medical problem that restricts the child's diet _____

Please serve this child _____

_____ instead of _____

A food substitution is required.

	Grains/Breads ² Cold Dry Cereal	½ serving ¼ c or ½ oz	½ serving ⅓ c or ½ oz	1 serving ¾ c or 1 oz

¹ Children **two years and older** must be offered fat-free (skim) or low-fat (1%) fluid milk. Serving whole milk to children between the ages of 1 and 2 years is recommended. (12 months through 23 months).

² Refer to the Grains/Breads Chart.

³ Juice may not be served when milk is served as the only other component.

⁴ Edible portions as served.

⁵ A manufacturer supplying an alternate protein product must provide documentation that the product meets all the following criteria.

- Processed so that some portion of the non-protein constituents of the food is removed;
- Safe and suitable edible products produced from plant or animal sources;
- Produced so the biological quality of the protein is at least 80 percent that of casein; and

▪ Contain at least 18 percent protein by weight when fully hydrated or formulated.

⁶ Nuts or seeds may not constitute more than 50 percent of the requirement. Instead, nuts or seeds shall be combined with another meat/meat alternate to fulfill the requirement. For purposes of determining combination, one ounce of nuts or seeds is equal to one-ounce cooked lean meat, poultry, or fish.

⁷ Full-strength vegetable or fruit juice may be counted to meet not more than one-half of the requirements.

⁸ For a period of one month, while a 12-month-old child is weaning from infant formula to cow's milk; one or both beverages may be served to claim the meal for reimbursement. A child receiving infant formula and not in the weaning stage must have a signed *Medical Exception Statement for Food Substitution* on file in order for meals to be claimed for reimbursement. Also, expressed breast milk can continue to be offered to a child over one year of age in place of cow's milk, since it is an alternate type of milk.

In accordance with Federal law and United States Department of Agriculture (USDA) policy, this institution is prohibited from discriminating on the basis of race, color, national origin, sex, age, or disability. To file a complaint of discrimination, write USDA, Director, Office of Adjudication, 1400 Independence Avenue, SW, Washington, D.C. 20250-9410 or call toll free (866) 632-9992 (Voice).
